
Discover your future in the interface between IT and life sciences.
We use techniques from physics and computer sciences to address unsolved challenges in life sciences.

OakLabs is a fast growing startup located just 30 min from Berlin city centre.
We are looking for a highly motivated

Developer (f/m) for Machine Learning

Your Job at OakLabs

You will become a part of our international and versatile development team with physicists, chemists, biologists and designers to work on several customer projects in the areas of machine learning and pattern recognition.

Your Skills and Expertise

- A degree in physics, mathematics, computer sciences or statistics
- Experience in machine learning, pattern recognition or data mining
- Programming skills in at least one of the following languages: C++, C, Python, Java
- Knowledge of object orientation is a plus
- Fluent in English and/or German

What we Offer

- Lots of room for your own ideas
- A flat hierarchy and fast decision-making processes
- A great team which looks forward to working with you
- An interesting field of work
- A fair salary
- Flexible working hours

How to Apply

Please send your application by email to career@oak-labs.com including your possible starting date, salary expectations and any work samples you want to share with us.
We will get back to you as soon as possible!
