
Start your career in the interface between quantum physics and life sciences. OakLabs is a fast growing startup located just 30 min from Berlin city centre.

We are looking for **two** highly motivated **PHP Developers** for a full time engagement.

Your Job at OakLabs

You will become a part of our international and versatile development team with physicists, chemists, biologists, and a designer to deploy a unique web solution for our customers. You will be responsible for creating and developing complete web applications for our solutions in life sciences.

Your Skills and Expertise

- Excellent programming skills in PHP, HTML5, JavaScript and SQL
- Extensive knowledge of PHP frameworks (e.g. Laravel, Phalcon PHP), AngularJS & JQuery
- Fluent in English and/or German

Bonus Points for:

- Knowledge of Linux and shell scripting
- A degree in physics, mathematics or computer science

What we Offer

- Lots of room for your own ideas
- A flat hierarchy and fast decision-making process
- A great team wich is looking forward to working with you
- An interesting field of work
- A fair salary
- Flexible working hours

Furthermore, we will provide you with a highly ergonomic working environment and fresh fruits!

How to Apply

Please send your application by email to **career@oak-labs.com** including your possible starting date, **salary expectations** and any work samples you want to share with us. We will get back to you as soon as possible!
