## Developer for Machine Learning (f/m)

You are looking for your next big challenge in machine learning? You want to be at the forefront of exciting new technologies for a steadily growing market? You need a friendly, relaxed and creative environment to thrive? Then it's time to discover your future at OakLabs. We use techniques from physics and computer sciences to address unsolved challenges in life sciences

Our office is located in the northern outskirts of Berlin - just 30 min from the city centre. To fill it with even more life and to grow our interdisciplinary team further, we are looking for a talented developer (f/m) for machine learning to join our team in full time.

### Your Job at OakLabs

---

You will become a part of our versatile development team with physicists, chemists, biologists and designers as our expert for all questions related to machine learning and pattern recognition. Together, you will work on diverse customer projects for research and discovery as well as diagnostics.

### Your Skills and Expertise

---

- A degree in physics, mathematics, computer sciences or statistics
- Hands-on experience in machine learning, pattern recognition or data mining
- Good programming skills in C++ or Python, both would be perfect
- Good knowledge in supervised learning and clustering
- Knowledge of Object-Oriented Programming (OOP) is a plus
- Fluent in English and/or German

### Why Us

---

- A relaxed and friendly working atmosphere with flexible working hours
- Lots of room to let your ideas flow
- The chance to make use of and to grow your talents even further
- A great international team with different backgrounds which looks forward to meeting you

Furthermore, we will provide you with a highly ergonomic working environment and fresh fruits.

### How to Apply

---

Please send your application by email to [career@oak-labs.com](mailto:career@oak-labs.com) including your possible starting date, salary expectations and any work samples you want to share with us.
